[1. PA-11-347: NINDS SBIR Technology Transfer](#)

Release Date: 09-22-2011Open Date: 11-05-2011Due Date: 09-08-2014Close Date: 09-08-2014

The NINDS SBIR Technology Transfer (SBIR-TT) Funding Opportunity Announcement (FOA) is intended to help move commercially-viable neuroscience based technologies from the NIH Intramural Program to the marketplace. Small Business Concerns (SBCs) are encouraged to submit applications that further develop such technologies and bring them to the commercial market. While universities can spi ...

[2. PA-11-340: Development of novel and emerging technologies for the accurate detection and diagnosis of polymicrobial infections in biomedical laboratory animal models](#)

Release Date: 09-16-2011Open Date: 11-05-2011Due Date: 09-08-2014Close Date: 09-08-2014

Microbial infections in biomedical laboratory animal models have become an increasingly important topic, because the constant possibility of outbreaks that may threaten the survival or utility of biomedical animal models available for current and future research needs. This funding opportunity announcement (FOA) encourages applications from small business concerns (SBCs) for Small Business Innovat ...

4. PA-11-335: Lab to Marketplace: Tools for Biomedical and Behavioral Research

Release Date: 09-08-2011Open Date: 11-05-2011Due Date: 09-08-2014Close Date: 09-08-2014

The NIH and other research sponsors invest a significant amount of funds in the development of new technologies to study biology and behavior, from basic and clinical perspectives, through a variety of mechanisms, including, from NIH, the R01, R21, P01, P41, and P50 grants. This investment has produced a large number of technologies that include hardware (e.g., instruments, devices, etc.), softwar ...

5. PAR-11-304: Development of Appropriate Pediatric Formulations and Drug Delivery Systems

Release Date: 08-11-2011Open Date: 11-05-2011Due Date: 09-08-2014Close Date: 09-08-2014

Purpose This Funding Opportunity Announcement (FOA) invites Small Business Innovation Research (SBIR) grant applications from small business concerns (SBCs) to address different and complementary research needs for the development appropriate pediatric drug formulations in different age groups. This FOA also encourages the development and testing of novel drug delivery systems in the pediatric p ...

7. PA-11-214: New Technology for Proteomics and Glycomics

Release Date: 05-19-2011Open Date: 07-05-2011Due Date: 05-08-2014Close Date: 05-08-2014

1. Research Objectives Proteomics continues to be a rapidly expanding field. A broad range of technologies is evolving rapidly to meet the needs of the field. However, despite explosive growth in both academic and commercial efforts, concrete technical capabilities are far from adequate to realize this promise. Proteomics technologies and methods in the three broad, interacting domains of biolo ...

8. PA-11-215: New Technology for Proteomics and Glycomics

Release Date: 05-19-2011Open Date: 07-05-2011Due Date: 05-08-2014Close Date: 05-08-2014

1. Research Objectives Proteomics continues to be a rapidly expanding field. However, despite explosive growth in both academic and commercial efforts, concrete technical capabilities are far from adequate to realize this promise. Proteomics technologies and methods in the three broad, interacting domains of biology, analytical chemistry, and informatics are still largely inadequate to address ...
